

Improved Touring Everything: ITE-O and ITE-U

Colorado Region 2014

Rules: Please refer to the current year GCR section 9 for safety preparation rules. All cars must conform to General Competition Rules specifications for Improved Touring preparation. ITE in Rocky Mountain Division is divided into two groups. All car must carry either class designation ITE-O or ITE-U. ITE-O is for those cars with over 3.0 Liters of engine displacement and ITE-U is for those cars with less than 3.0 Liters of engine displacement. Further, for non-normally aspirated cars (super-charged or turbo-charged) a multiplier of 1.4 will be used to determine final displacement for classification purposes, engine size will be rounded up to the next closest 1/10 of a liter.
