-Points are laid out as the amount earned in qualifying / the amount earned in the race.

-The numbers in red indicate points that will be dropped from final standings due to exceeding the 8 race count.

-\* denotes that the Sep. 6 event at CNS and the Oct. 19 event at SCR are considered "bonus" races. Regardless of how many races a driver has competed in, points earned from CNS will be added to the total. The SCR event is an enduro and if a driver competes in at least 20min. of it in a Spec7, they will receive an extra 10 points to their final standings.
